

**Orlando Camera Club
Presents August's 2017
Member Spotlight:**

Gary Shaver

Created to express and reflect glory, Gary Shaver, a fine-art and landscape photographer, has sought to do just that from his youth. He makes his home in Orlando, FL where he is an advocate for creative community by actively participating in local photo clubs and training others in various settings. An avid traveler and explorer, Gary, desires to capture images in various settings and transform them into works of art that communicate the truth and beauty of God's creation.

Gary is retired and does photography as a semi-professional but doesn't want to get "too busy." He enjoys shooting landscapes because it gives him the opportunity to travel and enjoy the outdoors. He incorporates HDR and long exposure techniques to his landscapes to add additional interest. Gary likes to attend photography conferences such as the F3C, and others, as its fun to learn and meet other people with the same interests.

Gary's images migrate towards the creative side of photography while utilizing his art background to take his images towards a more artistic look. He shoots with Canon and his primary camera is the Canon 5D Mark IV. His favorite all-around lens is the Canon L series 24-105 Mark II.

According to Gary, the OCC has been one of the best things for him since leaving the Midwest and coming to Orlando. The friendships he has made are priceless and he never attends a meeting where he doesn't come away with a new or improved skill. Participating in the workshops and field trips are a great benefit to membership. One of his featured images is from an OCC field trip.
