Orlando Camera Club Presents
July's 2018 Member Spotlight:

Jennifer Wiggins

I have always been a visual artist in one way or another. I started taking private art lessons when I was in 6th grade where I learned to use different mediums including oils, watercolor, pen & ink, etc. I later studied Graphic Design in college and I currently work in the Graphic Arts field. I started doing photography about eight years ago.

I am always "seeing" new things to capture whether it is a landscape, street scene or some type of animal. I shoot a wide variety of subjects combining my love of nature, people and exploring the world through travel. It's very gratifying for me to capture a place, a moment or learn a new technique in Photoshop.

Please visit my website at **JenniferWigginsPhotography.com.** Hope you enjoy my images as much as I enjoy creating them.
