She has had the privilege of teaching the creative art of photography to many groups and individuals.

Susan blends her love of people, art, fashion and photography into her signature style of portraiture. Whether her clients are looking for heirloom quality portraits or beautiful business branding photography, her goal is to exceed their expectations.

## JANUARY 28: ANNA CARY Selective Editing in Lightroom & Camera Raw

Anna Cary, Fine Art Photographer based in Central Florida Anna's passion for capturing images of small town America, and, more recently, cities of Europe, are photographed using both an infrared black and white camera, as well as a digital mirrorless camera. She adds creative dimension to her work by applying digital painting and drawing effects using a Wacom pen and tablet. Her work has been exhibited in several local galleries. and her infrared photographs have been published in the comprehensive book, Digital Infrared Photography, by Deborah Sandidge. Notecards and prints of her images are available for sale in local gift shops and online at [www.annacary.com](http://www.annacary.com). Anna loves teaching Photo editing, and currently holds workshops at Harmon School of Photography, in addition to providing personal customized instruction.

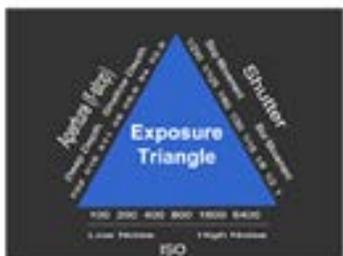

# CAMERA ACADEMY IS BACK

There will again be three sessions:  
Camera Basics, Exposure Triange, and Composition  
followed by a field trip for participants.

We meet at the Marks Street Senior Center, Orlando, Fl, Camera Academy starts at 5:15 PM.

**Exposure Triangle**

**October 8 @ 5:15 pm - 6:15 pm**  
**The Exposure Triangle Demystified by Wayne Bennett**

The Exposure Triangle is the governing force that affects all photography, whether you are shooting in manual or letting the camera do the work, the rules of the triangle govern how your image turns out.

Once you learn these rules, you will never be in the dark again!

**October 22 @ 5:15 pm - 6:15 pm**  
**Camera Basics by Matt Klinger**

Camera Basics (or Know Your Camera) will cover a variety of basic camera settings and operations including mode selections, ISO, focusing, exposure compensation, metering, white balance, memory cards, and more.

We'll also cover basic camera and lens maintenance/ care, sensor cleaning and other items related to getting the best performance out of everyone's cameras. Participants are encouraged to bring their cameras with them to this session.

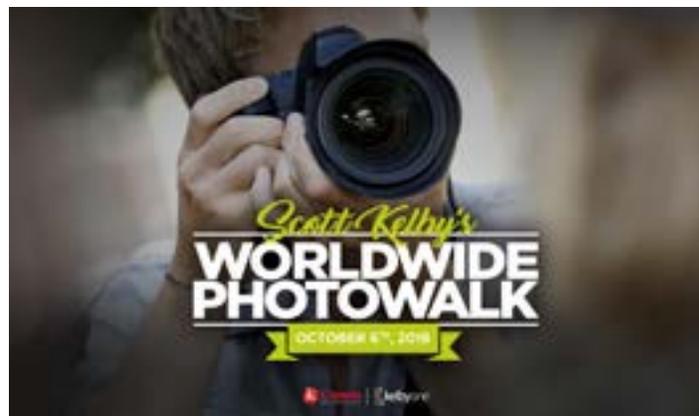

**Composition**

**November 12 @ 5:15 pm - 6:15 pm**  
**Photographic Composition by Jeffri Moore**

Stop by on November 12th and see Jeffri discuss Photographic Composition, you will be glad you did. 5:15 pm at the Marks Senior Center.

Photographic Composition is a large collection of rules, or suggestions, depending on your point of view. Rule of Thirds, Balancing Elements, Leading Lines, Symmetry and Patterns, Viewpoint, Background, Depth, Framing, Cropping and Experimentation to name just the top 10!

Come see Jeffri and get a handle on this complex topic.

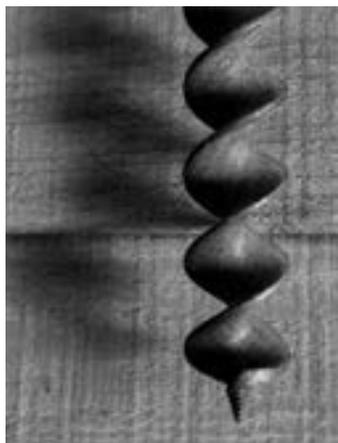

# SHOOT-OUT- October

## Shootout: BARBERVILLE PIONEER SETTLEMENT

**SATURDAY, OCTOBER 27 - 9:00 AM - 12:00 PM**

1776 Lightfoot Lane Barberville, FL 32105

Barberville's Mission: "To educate and entrust the public and future generations with knowledge of the pioneer lifestyle of our forefathers, through hands on experience, folk life demonstrations, preservation and historical exhibits."

Drive time from downtown Orlando is about an hour. We will arrive at Barberville when they open at 9:00 am. Members may want to find subjects to photograph for our December Competition theme: Abstract/Texture Admission is \$8 – Adults, \$7 – Seniors

Photographers will be free to roam the settlement making images of structures, still life, etc. A tripod is recommended or plan to use higher ISO for dimly lit rooms. As always, we will meet somewhere local for lunch.

.....

### GENERAL MEETING: NOVEMBER 12

Gary Shaver is a fine-art and landscape photographer, has sought to do just that from his youth. He makes his home in Orlando, FL where he is an advocate for the creative community by actively participating in local photo clubs and training others in various settings. An avid traveler and explorer, Gary, desires to capture images in various settings and transform them into works of art that communicate the truth and beauty of God's creation.

He will be showing us some of his "secrets" during a live Photoshop Editing presentation. You don't want to miss this meeting!

For more of Gary's image work, visit <https://www.garyshaverphotography.com/>

# NATURE UP CLOSE

A 2 day, Hands-On Macro & Nature Photography Workshop

With TAMRON Image Master, David Guy Maynard

## OCTOBER 5 & 6

**What to expect:**

In this 2 day, lively 8+ Hour (Total) Workshop, you will not only learn straight forward, useful information for taking better Nature and Macro photos, but for taking better photos in general. An understanding of light and the proper tools are essential. Davids approach to these is simple, straight forward, and stresses minimum gear & maximum results.

From 6 to 8 PM on Friday David will offer a classroom style presentation covering tools and techniques to produce stunning Nature & Macro photos. Then from 7:30 AM to 10 AM on Saturday, with guidance and coaching from David, the group will shoot hands-on at nearby Meade Botanical Gardens, and again at 5:30 to 8 PM. Learn to balance harsh sunlight, manage DOF, and achieve magazine quality photos the easy way. **Bring your Cameras and gear!** We will meet back at the store at 12 PM Saturday for a provided lunch, mingle, and Q&A session. Register now for a truly educational and entertaining experience.

**Tickets are VERY limited. Don't miss out, register early!**

**More Details:**

Bring your camera, flash, lenses, and tripods. (For the Saturday sessions) While Macro and close up will be a major part of the workshop, our location will offer other subjects such as birds, lizards, and nature landscapes.

Also, as a bonus, we will have a selection of lights from LED to flash, and some lenses for you to try out and use to get some stunning photos!

**Admission:**

Receive an addition \$20 off the already discounted price by registering by Sept 5th! See registration page for details.

**What's included:**

- \* Welcome bag and refreshments
- \* Info packed classroom style seminar (Friday Evening)
- \* 2, Hands-on nature & macro photo shoots (Saturday)
- \* Provided lunch and Q&A session (Saturday)
- \* Special Offers from Sponsors
- \* Goody bags, door prizes and more!

**Your Presenter:**

David Guy Maynard is an award winning photographer working in Commercial, Fashion, Editorial, Event, Nature/Macro and Fine Art photography. His work has been published in numerous magazines and publications around the world, as well as being featured in prominent galleries and exhibits.

TAMRON Image Master

#### Sept. 1st through September 30th

2018 3rd Triannual Print - Accepting Submissions

#### November 1st through November 30th

2018 3rd Triannual Digital - Accepting Submissions

#### Print Competition Information:

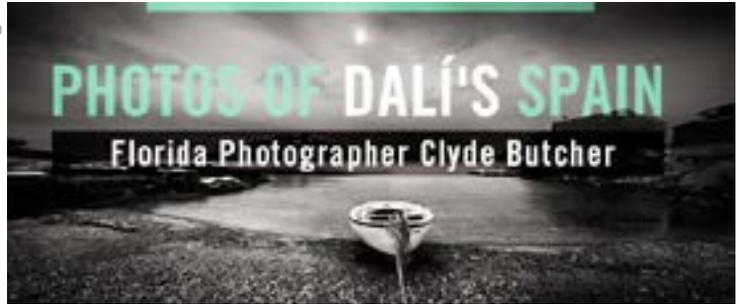

For more information on how to enter visit <https://f3c.org/competition/rules-and-regulations/> . The process requires that you submit your entry digitally, pay your entry fee, wait (may take a few days) for approval of your image(s) and print the labels for the back of each entry. The printing and mounting can also take some time, so you will need to allow enough time in your schedule for all those tasks. A label for each print is sent by F3C after they approve your entry, make sure they are attached to each image you deliver to George.

# KUDOS

"Sanford Evening Ride Time" - JENNIFER WIGGINS is excited and honored to have her image selected for the THIRD year in a row to be in the Images of Sanford Calendar in 2019!!!

The 2019 Calendar Reveal will be held 6:00-9:00 pm on Saturday October 13th at Jeanine Taylor's Folk Art Gallery, 211 E 1st Street, Sanford. Sponsored by the Sanford Historic Trust.

This exhibit runs through November 25th at the Dali Museum in St. Petersburg.

## Clyde Butcher: Visions of Dali's Spain

To create this special exhibition, The Dali invited Clyde Butcher, the renowned nature photographer often called "Florida's Ansel Adams," to explore and visually document Salvador Dali's homeland. Clyde Butcher: Vision's of Dali's Spain provides a technically brilliant, epically scaled view of Dali's beloved environs, to creates a euphoric experience of immersion.

# PHOTO & VIDEO Hunt's

Following are our October specials. These specials will be offered through October 31, 2018 unless otherwise stated. As always, UPS Ground shipping is FREE in the Lower 48 and there is no sales tax except for orders shipped to MA, RI or ME. In order to receive correct club and workshop special pricing, please call me, Alan Samiljan, at (781) 462-2383 any time you order, or send an email including your name and phone number to [asamiljan@huntsphoto.com](mailto:asamiljan@huntsphoto.com) and I'll call you. Please note my hours, 8:30-5:00pm, Monday, Tuesday, Thursday & Friday.

The Nikon D850, \$3,299.95. Supply has finally loosened up and we often have them in stock. My customers tell me it's a monster of a performer! Call 781-462-2383 to order.

New Fuji X-T3 body, \$1,499. Add the VG-XT3 battery grip, \$329, and save \$130!  
This is what DP Review had to say: "The X-T3 brings with it a brand new sensor, a hybrid autofocus system that looks extremely promising and video features more in-line with a Panasonic GH5 than typical enthusiast mirrorless cameras. Based on our initial impressions, the X-T3 may be the mirrorless APS-C camera to beat."

Fuji has some great lens deals through October 31. Call me for details, 781-462-2383!

Nikon's Full Frame Mirrorless Z7 and Z6 as well as Canon's EOS R Full Frame Mirrorless cameras are causing quite a stir. Both systems will use most existing lenses with an adapter, and I can tell you from personal experience, they work seamlessly! Nikon is offering a \$100 savings when the FTZ lens adapter is ordered with the camera. Call me at 781-462-2383 with any questions or to order!

Canon has also introduced two new BIG lenses, the 400mm f/2.8L IS III, \$11,999, which is 25% lighter than the version II, and the 600mm f/4L IS III, \$12,999, which is 20% lighter than the II! It is highly unlikely, with the weight reductions achieved in the version III, that Canon will produce a DO version, which is much more expensive to manufacture, so order your III now! Here are some other improvements in the 600mm III vs the II:  
Minimum focus distance 13.78' vs 14.76"  
5 stop IS vs 4 stop IS  
17 elements in 13 groups vs 16 elements in 12 groups  
reduced flare and ghosting  
reduced chromatic aberrations  
6.71 lbs vs 8.62 lbs.  
Not to be outdone, Nikon is delivering the AF-S NIKKOR 500mm f/5.6E PF ED VR, \$3,599.95, only one stop slower than the 500mm f/4E VR, \$10,299.95! The new 500mm weighs about the same as the Nikon 70-200mm f/2.8E lens. Amazing! Call me at 781-462-2383 to order yours now.

[www.43rumors.com](http://www.43rumors.com) is reporting that Panasonic will be announcing two full frame mirrorless cameras on Sept 25th. They have reported several possible specs and features none of which have been confirmed by Panasonic. If you would like to receive more information as it becomes official please let me know. 781-462-2383.

Canon has continued their printer rebate program through October 31, 2018. Hunt's is offering the Canon Pixma PRO 10 printer at \$379.99 before rebate (Canon sells it on their website for \$699.99). FOR THE MONTH OF SEPTEMBER WE WILL INCLUDE ONE PACKAGE EACH OF CANON 13X19" 50 SHEET SEMIGLOSS AND LUSTER PAPER, A \$100 VALUE! Canon will then send you a \$250 mail in rebate! This is a pigment based printer and is always reviewed very well. Your final cost is \$129.99 after mail in rebate! That includes the printer, 100 sheets 13x19" paper and a FULL set of ink! And don't forget to ask me about special pricing on Monitor Calibration from Data Color and X-rite, a crucial part of the printing process!

Hunt's is also offering an incredible special on the Canon Image PROGRAF Pro-1000 17" Printer. Purchase the printer for \$1,299.99, and receive an assortment worth \$699.94 of 17x22" and 13x19" Canon paper! You then send in your \$300 mail-in rebate. Your final cost is \$999.99 for the printer and \$699.94 worth of paper. Supplies definitely limited on this one. Call me now to reserve yours. Rebate runs through October 31, 2018!

Used Gear, subject to prior sale:  
Olympus 40-150mm f/2.8 Pro \$1,099  
Sony A7R II body <15k clicks \$749  
Sony FE 28mm f/2.0 \$299  
Fuji X-Pro2 body \$1,099  
Fuji GFX 50S body \$4,699  
Fuji GF45mm f/2.8 \$1,199  
Canon 500mm f/4L IS \$3,699  
Canon 300mm f/4L IS \$799  
Canon TS-E 24mm f/3.5L II \$1,399

Please contact me for special pricing and packages for anything not listed here. Looking forward to hearing from you!

### 7 TIPS FOR SONG BIRD PHOTOGRAPHY

#### 1. Size matters.

It takes a great big lens to photograph itty bitty birds. Tamron & Sigma both offer 150mm-600mm zooms at a reasonable price if you don't want to plunk down the cash for a Nikon or Canon 600mm prime. A 400mm or even 300mm with a teleconverter will also work.

#### 2. Use a tripod.

Unless your birds are very habituated, the very motion of raising your camera to your face will likely make them scam. Using a tripod allows you to keep your camera up & ready, thereby minimizing movement. Typically, when the focus is on birds-in-flight (like at Bosque del Apache) I shoot a lot by hand, but with songbirds you're mostly going for perched or landing birds rather than birds-in-flight.

#### 3. Go native.

Use native plants in your yard. Not only do they require less water & upkeep, natives provide favorite foods for your local fliers (e.g., birds & butterflies).

They also provide appropriate additions to your images. Many commonly sold plants are exotics that provide nothing but structure.

#### 4. Keep that shutter speed up!

Songbirds are quick-moving & rarely stay still. By using a shutter speed

of 1/500 second or faster you will prevent most motion blur.

#### 5. Shoot in bursts.

Set your camera to high-speed burst mode. By taking a burst of 3--5 shots, when you press the shutter you increase your chances of capturing a keeper. There is usually one shot in a series that is better than the others. Look for a catchlight in the eye, good head position, etc. to decide on which it is. (Burst mode also lessens the chance of getting only shots with nictitating membranes in them.)

#### 6. Shoot wide open.

Use the maximum aperture of your lens. This approach offers a double benefit. By shooting wide open you can maximize the shutter speed for a given level of light. The large aperture also causes the area behind the bird to blur, which minimizes your image's background distractions.

#### 7. Wait for it.

Behavior shots are generally preferable to bird-on-a-stick ones. To get them you have to be patient. Wait for your subject to preen, stretch, sing, etc. But don't get too relaxed while waiting—you need to remain diligent so you're ready when the action begins!

NEW CLASSES at  
HARMON'S SCHOOL  
OF PHOTOGRAPHY

### Lightroom Classic - Organizing

Adobe Lightroom is designed specifically for digital photographers, and offers powerful features to organize and edit your images. This newly structured three-week class will introduce you to the power of Lightroom and its organizing capabilities, which is an essential prelude to an efficient and effective digital workflow.

The class focuses on Lightroom's Library Module, which is the key to a functional photo management program, and will show you how to: create a file & folder mgmt system & backups, import images into Lightroom, rename images and folders, navigate the Library Module, efficiently review images, add metadata & protect your images, create and manage keywords, search for images with flags, keywords & metadata, understand & use collections, digital workflow, Quick Develop options, syncing with LR Mobile and how to avoid pitfalls.

If you are tired of dealing with an unorganized – and growing – photo collection, and searching through multiple folders to find them, then this class is for you. Good organization and workflow are an essential prelude to editing your images, which will be covered in depth in a subsequent class.

this class is based on Lightroom Classic CC, but is relevant for Lightroom versions 4-6 also. Please note that Lightroom CC (the cloud-based version) is NOT-covered in this class.
