How to Photograph Nature in High Key Style By Lisa Langell

High key photography is a powerful, evocative and often ethereal type of photography. It involves creating images where there is a dominance of white or bright tones. For nature photography, it is a type of photography that goes against most "traditional" styles and "rules" of nature photography. It requires the right circumstances – the right light, subject, and setting—in order for the magic of High Key photography to work.

When it all comes together, the results can be spectacular! This class will introduce participants to the genre of High Key photography, which can be one of the most artistic forms of nature photography that can be done in-camera and/or a combination of in-camera and post-processing.

This video class will help you put it all together and begin photographing in high-key style! You may even find a treasure trove of images in your archives that could work perfectly for this approach!

You will learn:

- What lighting conditions are best (and worst) for high-key photography
- The settings that are generally recommended for creating high-key work
- What foregrounds and backgrounds work best for high key photography
- Composition tips for this style of photography
- Post-processing tips to create the final look

September 10th Field Trip
6:30 AM
SUNRISE AT LAKE
MONROE, SANFORD

Hello OCCers!
 Our September field trip will be the beautiful sunrise in Sanford!

DATE: Saturday, September 10, 2022
SUNRISE: 7:08 A.M.
ARRIVAL TIME: 6:30 A.M.
LOCATION: DOWNTOWN SANFORD MARINA (f/k/a Monroe Harbour Marina)
ADDRESS: 531 N. Palmetto Avenue, Sanford, FL 32771

As you know, the best color is during the half hour before sunrise. The marina provides a beautiful view to catch the sunrise. Then, of course, there is the marina and the sailboats, and even fun architectural elements along the river walk. I recommend that you bring your favorite lens (mine is the 24-240mm zoom), a neutral density filter and your tripod, because you may also want to try your hand at long exposure shots by the iconic pilings. There is the cute little Caffe' Di Riverwalk right across the street from the pilings where we can get a cup of coffee and a morning treat. Hope you'll join us!

Please RSVP to: fieldtrips@orlandocameraclub
 Thanks!
 Rita

RETROSPECTIVE TRAVEL SERIES

RETROSPECTIVE TRAVEL SERIES

The Retrospective Travel Collection features a timeless look that is reminiscent of an age when natural cotton fiber offered the softest fabric with the most durability.

Our proprietary stone-wash/tumble-dry technique produces a crackle effect, like a stone's surface, that is unique to each bag. Plus, a tartan fabric liner highlights the elegance of this heritage series. All materials are treated with a water-repellant coating to protect against moisture and wet weather. And with Think Tank's reputation for design and build quality, the Retrospective Travel Collection will stand the test of time.
